

Wall of Color Flower Merchant

The Wall of Color is an industry first in tall, open refrigerated floral cases, featuring Floritech's patented boundary layer airflow technology. The cooler has a large floral capacity with a unique shelving system to optimize floral presentations. It is available in 4-5-6-8 foot modules.

Shown above, 8-foot unit with optional halogen lights and glass grille.

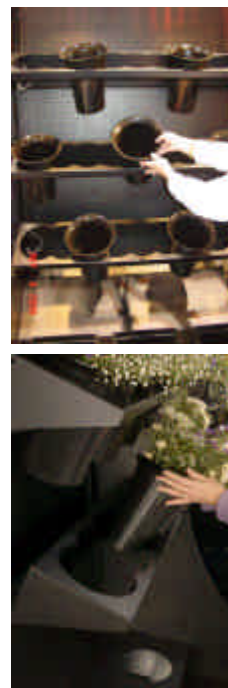

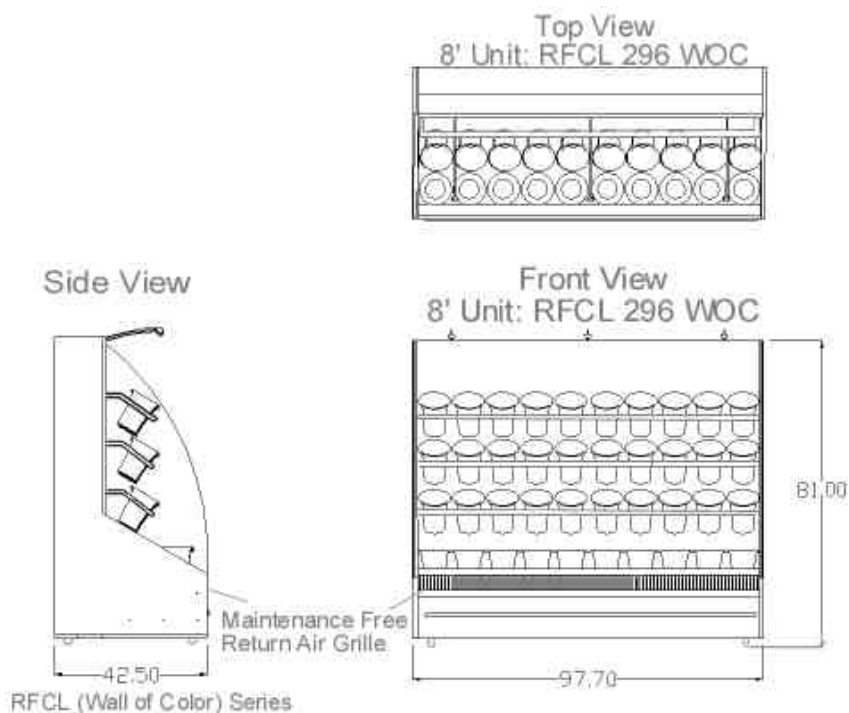

Standard Features

- Uniquely “scalloped” vase openings and adjustable rack and bracket positions for floral merchandising flexibility
- Open front and top promotes impulse buying
- Modular design can be combined with other displays to form endless configurations
- Patented “Boundary Layer” airflow technology directly cools vases and gently envelops flowers
- “Maintenance-free” return air grille prevents debris from entering the cooling system
- Top condenser air discharge eliminates hot air grilles common to most self-contained cases
- Self contained units are thermostatically controlled with an automatic “on demand” defrost cycle
- Oversized evaporator coil minimizes moisture removal, keeping relative humidity high
- Automatic condensate removal, no drains required
- Polymer composite, laminated polymer composite walls and powder-coated aluminum components for durability
- Curved tempered glass side windows to enhance product visibility
- Ozone-friendly R404A
- Power cord provided for fast and easy setup
- Black gloss exterior, textured black interior
- Black matte exterior and interior

Options

- Halogen spot lights
- Special finishes and colors in gloss or matte
- Tempered glass windows
- Tempered glass grille and metal corner guards
- Self-storing vase hole covers for arrangements
- Long-stemmed flower vases or grower buckets
- Remote refrigeration system
- 4-year extended compressor warranty—5 year total

Wall of Color—Dimensions

“Scalloped” shelves adjust vertically and horizontally according to the type and amount of bouquets in the cooler. This way, shelves can hold more or fewer vases, depending on store delivery or holiday schedules, without showing any “gaps” in-between

Shown above: typical 8-foot module with standard vases.

Specifications

Model	Width	Height	Depth	Vase Capacity Standard Vases
RFCL248 WOCR	49 1/2"	81"	42 1/2"	(20) 9" x 10" round
